No. OF 1911.

From

LIEUT.-COLONEL G. E. HYDE-CATES,
Political Agent, Mahi Kántha;

To

THE SECRETARY TO GOVERNMENT,
Political Department, Bombay.

Mahi Kántha Political Agency:
Camp Ahmednagar (Idar), July 1911.

Sir,

I have the honour to submit the Annual Administration Report of the Mahi Kántha Agency for the year ending 31st March 1911. The State of Idar, the only first class State under this Agency, submits its own Annual Report and it is therefore not included in this.

CHAPTER I.—GENERAL AND POLITICAL.

2. This Agency lies in the extreme north-east corner of the Bombay Presidency. It is bounded on the north by the Hilly Tracts of Mewár and Sirohi; on the east by Dungarpur, Rewa Kántha and Kaira Collectorate; on the south by the States of Lunáwáda and Bálásinore, the Collectorates of Kaira and Ahmedabad, and the Dehegám Mahál of His Highness the Gaikwar of Baroda; on the west by the Mahals of Kheralu and Vijápur and the Kadi Pránt of His Highness the Gaikwar and the Pálanpur State. Its area is 3,124 square miles, and population according to the Census taken during the year under report is 4,12,688 including that of the Idar State, which is 2,10,095.

Tours.

3. In the month of May 1910 I proceeded from Dánta to Bhálusna and Váo under the Gadhwada Thána Circle. On my way to Keshampa I inspected the boundary in dispute between Satlasna and Dánta and thence returned to Sádra in the end of June *viâ* Idar and Ahmednagar. On the 9th of July I visited Mánsa to perform the opening ceremony of the school building there. By the middle of December I commenced my tour and proceeded to Katosan and thence to Ahmednagar. After the Christmas holidays I moved my camp to Pál *viâ* Idar to hold border-courts with Dungarpur and Kherwára officers and to dispose of the two boundary appeals between Idar and Mewár against the decision of the special Boundary Settlement Officer in conjunction with the Political Superintendent, Hilly Tracts, Mewár. After finishing the border-court and boundary work I visited Abhapur under the Polo State where I had interviews with Rao Bhupatsingji of Pol. From there I proceeded to Khed Brahma to hold a border-court with the Kotra Officer. After disposing of this work I visited Sudasna and Dánta where the year under report closed. While at Dánta I had several interviews with the Maharana and I inspected the remaining portion of the boundary under dispute between Dánta and Satlasna. While at Dánta the negotiations between the Maharana and the Agents of the Ambáji-Taranga Light Railway were carried on, but the question of jurisdiction over the portion of the line in Dánta territory has come in the way of the progress of the scheme.

4. The Assistant Political Agent commenced his tour on the 16th November and remained in the district till 25th March 1911. During his tour he visited all the tálukas and Thána Circles under his charge with the exception of Warsoda Táluka. While in the districts he made his usual inspection of the judicial records of the jurisdictional Chiefs and the records of the Thána Circles

under his charge. He also inspected schools, dispensaries, and liquor shops wherever he went.

5. The District Deputy Assistant Political Agent made a long tour in the district under his charge. The period of his tour extended from 27th November 1910 to 1st June 1911. He visited all the Thána Circles and the Managed Estates under his charge with the exception of Ramas. He examined the accounts of all the Managed Estates and inspected the records of the Thánas of Katosan, Sabarkantha and Gadhwada. He also visited Valasna which is the only jurisdictional táluka under his charge and examined its judicial records.

Principal events.

6. *Dánta.*—The heir-apparent Kumar Shri Bhawansinhji was betrothed to the daughter of Maharaj Mulsingji of Dattigam in Málwa.

Pethápur.—The younger sister of the minor Thákore was married to the heir-apparent of Ruha under Cutch on 26th May 1910.

Ilol.—A son and heir was born to Kumar Vajesingji of Ilol on 31st December 1910.

Sudasna.—A son and heir was born to the Thakore on 11th August 1910.

Vadagám.—Thakore Dipsingji died on 16th June 1910 without issue and was succeeded by his brother Jiwatsingji under the sanction of Government conveyed in their Resolution, Political Department, No. 5302, dated the 10th August 1910.

Hadol.—The attachment over the táluka was withdrawn and the possession of its villages was handed over to the Thakores of Hadol and Undni according to the terms of the settlement sanctioned by Government in their Resolution No. 4056, dated the 7th June 1909, Political Department.

7. During the year under report the Commissioner, Northern Division, visited Sádra in December 1910. He also encamped at Amaliara on his way to Ahmedabad from Prántij.

The Inspector-General of Police visited Sádra in November 1910 and inspected the foot and mounted force of the Agency Police.

8. Appendix I gives information about the principal officers of the Agency during the year under report.

CHAPTER II.—Administration of Land.

9. The system of revenue administration and recovery is not uniform in all the States. In some it is levied in kind and cash, while in others it is levied in cash alone. Except in the Managed Estates the Chiefs themselves manage their revenue affairs.

10. The following particulars may be stated under this chapter:—

(1) *Mohanpur Táluka.*—The rates of Vighoti were revised in the villages of Tentisar, Sajapur and Shampur. 125 Bighas of land were newly taken under cultivation. The villages of Charnawata and Motipura which were depopulated in the famine year were re-populated.

(2) *Pethápur.*—22 cases about alienated lands were disposed of during the year as against 18 in the preceding year.

(3) *Amliara.*—In the villages of Raghunáthpur, Jodhpur, Nána Galál-ni-Muadi and Junwáda Vighoti system has been introduced instead of Vaje.

(4) *Rupal.*—Vighoti system was introduced in the village of Bakhor.

(5) *Bávisi Thána.*—The scheme regarding the revision of the contribution paid to the Matádárs towards tribute over alienated lands was sanctioned by Government in their Resolution, Political Department,

No. 2490, dated 12th April 1911, in which a further report as to whether there is any objection to shift the responsibility of the payment of tribute on alienated lands from the Matádárs to the Thána has been called for by Government. The question of payment of compensation to the villages of Porda, Kaprupur and Mahisa on account of damage done to their lands by the Luni River subsequent to the year 1868 is under correspondence between the authorities concerned.

11. Important remissions of revenue and advances of Tagávi have been reported as under during the year under report :—

Name of Estate.	Remission of Revenue.	Advances of Tagávi.
	Rs. a. p.	Rs. a. p.
Malpur ...	704 15 1	2,000 0 0
Mohanpur ...	830 5 4	.....
Pethápur ..	5,004 14 11	.....
Khadal ...	.....	500 0 0
Ghodasar ...	3,963 8 9	.....
Amaliára ..	196 10 2	.....
Sáthamba ...	200 6 9	.....

12. The important portion of the disputed boundary between Dánta and Satlásna was decided by me during the year under report, and Satlásna has appealed to Government against my decision.

The two boundary appeals between I'dar and Mewar refered to in para. 12 of my last year's report were disposed of during the year under report by the Political Superintendent, Hilly Tracts, Mewar, and myself.

The appeal in the Khara Kutra Maria case is pending the decision of the Honourable the Agent to the Governor General in Rájputána.

CHAPTER III.—Protection.

13. None of the States under this Agency has its own rules and regulations and the adoption of the spirit of the laws and regulations in force in British India is the guiding principle except those referred to in Appendix II.

14. *Military Force.*—None of the States except I'dar maintains a military force (*vide* Appendix III).

15. *Police.*—There are two kinds of Police, *viz.*, Agency and State Police. The Agency Police is maintained from the Police Subsidy which is recovered from the tribute payable to His Highness the Gáikwár. The Native State Police is maintained by the States concerned. The Agency Police has its duties in the Sádra Civil Station and the Thána Circles under the Agency which are under the direct and permanent administration of the British Government. There are also outposts of the Agency Police in the Rehwar Zillah under the control of the Rehwar Zillah Foujdár. The duty of this Foujdár is to carry on Police-duties in the non-jurisdictional tálukas in the Rehwar Zillah and to see that the State Police of the Jurisdictional Chiefs in Rehwar Zillah works properly and to assist them whenever required.

16. The financial condition of the Pethápur Táluka having improved, the táluka is now able to maintain its own Police and so steps have been taken to withdraw the Agency Police from the táluka. The jurisdictional tálukas of Hapa and Kadoli are too poor to maintain their own Police. The managed estates of Mohanpur, Ilol and Khadal maintain their own Police but owing to their being under Government management, their Police are kept under the supervision of the Superintedent of Police, Mahi Kántha.

17. The strength of the Agency Police during the year under report was the same as in the previous year, *viz.*, 394 Foot and 121 Mounted, and the total

cost was Rs. 1,16,607-3-3 against Rs. 1,16,853-6-11 in the previous year. The decrease in expenditure is due to less expenditure on account of clothing and travelling allowance.

18. The Agency Police has to supervise an area of 469 square miles with a population of 85,297. The ratio of Police to population and area in square miles is 165·6 and ·9, respectively. The Agency Police are armed with Martini Henry Rifles and Smooth-Bore Muskets.

19. The percentage convicted of accused sent for trial by the Agency Police is 67·02 during the year against 56·15 last year. The percentage of recoveries of stolen property is 67·4 as compared with 10·1 in the previous year. The result of the work done by the Agency Police is therefore staisfactory.

20. The strength of the State Police is 312 Foot and 63 Mounted against 312 Foot and 64 Mounted in the previous year, there being a decrease of 1 Mounted Police in Vadagam Táluka. The cost of this Police amounted to Rs. 33,727-8-10 against Rs. 32,466-13-6 in the previous year. The area under the supervision of the State Police is 1,006 square miles with a population of 124,580. The ratio of Police to area and population is 2·7 square miles and 332·2 men per Policeman. The State Police are for the most part armed with swords and muzzle-loading muskets and are undrilled and untrained men.

21. The percentage convicted of accused sent for trial by the State Police is 64·2 against 74·2 in the preceding year; the percentage of recoveries of the property stolen is 26·5 against 43·52 in the year before. The work of the State Police is therefore less satisfactory than that of past year.

22. For detailed information as to the strength and cost of the Agency and State Police, *vide* Appendix IV and as to the work done by them, *vide* Appendices V, VI and VII. There was no serious robbery or dacoity and the public peace was preserved throughout the year.

23. *Village Police.*—In this Agency there is no regularly paid village Police. The duties of the Police Patels are generally performed by the Revenue Patels and the duties of watchmen are done by men directly appointed by village community, who are remunerated either in cash or grain per house and in some cases by land given by village owners.

24. The work done by the Political Agent as Sessions Judge is shown in the statement below :—

25. The Criminal work done by the various Agency and Native State Magisterial Courts is shown in Appendix VIII and that of the Appellate Court of the Political Agent is shown in Appendix IX.

26. In the month of January last, a border-court was held by me at Pal with Captain Stockley, Political Superintendent, Hilly Tracts, Mewar, Kherwara, and Major R. B. Berkeley, Political Agent, Southern Rájputána States. In the middle of February another border-court was held at Khed-Brahma

with Captain Stockley as Assistant Political Superintendent, Hilly Tracts, Mewár, Kotra. The work done by these two Courts is shown in the statement below :—

Civil Work.

27. The work performed by the Agency and Native State Courts is shown in Appendices X, XI & XII. In the Agency Courts there was a balance of 19 cases at the beginning of the year and 363 new cases were filed during the year, making a total of 382, out of which 359 were disposed of during the year, leaving a balance of 23 at the close of the year against 19 in the previous year. In the Courts of the jurisdictional Chiefs there was a balance of 94 cases at the end of the last year and 484 new cases were filed during the year, making a total of 578, out of which 446 were disposed of during the year, leaving a balance of 132 at the close of the year against 94 in the previous year. Out of 132 cases in arrears those of the Courts of the Mánsa and Vásna tálukas amount to 97.

28. Appendix XI shows the result of applications for execution of decrees. In the Agency Courts there was an opening balance of 10 applications and 253 were received during the year, making a total of 263, out of which 247 were disposed of, leaving a balance of 16 against 10 in the previous year. In the Native State Courts there was a balance of 82 applications at the commence-

ment of the year and 525 were newly received, making a total of 607, out of which 518 were disposed of during the year, leaving a balance of 89 against 82 in the previous year.

29. Appendix XII shows the work done by the Agency Civil Appellate Courts. In the Court of the Political Agent there was an opening balance of 13, and 5 were newly received during the year, making a total of 18, out of which 7 were disposed of, leaving a balance of 11 against 13 in the previous year. Also 4 appeals were disposed of by the Assistant Political Agent and 8 by the District Deputy Assistant Political Agent during the year, leaving none in the arrears.

30. Three revision applications under section 622 of the Civil Procedure Code were received and there was 8 in arrears, making a total of 11, out of which 1 was disposed of, leaving a balance of 10 at the close of the year.

31. Three applications under section 588 of the Civil Procedure Code were received during the year and 2 were in arrears, making a total of 5, out of which 3 were disposed of during the year, leaving a balance of 2 at the close of the year.

Political Work.

32. The work done by the Courts of the Political Agent and the Assistant Political Agent as regards Political Suits during the year under report is as under :—

Name of Court.	Balance of the last year.	Filed during the year.	Total.	Disposed of during the year.	Balance.
Original Suits.					
Political Agent	8	1	9	2	7
Assistant Political Agent ...	25	16	41	23	18
Appeals.					
Political Agent	8	11	19	10	9

Appeals to Government.

33. Orders were received from Government during the year under report on 28 appeals which were of the following nature:—

18	Political.
3	Civil.
7	Miscellaneous.
28	

The result of these appeals is as under:—

18	rejected.
2	modified.
2	withheld.
6	allowed.
28	

Out of these 28 appeals 6 were addressed to the Government of India and 2 to the Secretary of State for India.

Extradition.

34. The system of reciprocal arrangement for the extradition of offenders between Mahi Kántha on the one side and the British Districts and the States of Baroda and others is working satisfactorily. The introduction of similar arrangement with the Rájputána States is desirable.

Prisons.

35. Appendix XIII gives the information regarding Agency and Native State jails and lock-ups. The health, treatment and general conduct of all the prisoners were good and the jail buildings are suitable for existing requirements.

Registration.

36. Appendices XIV and XV give the required information about registration of documents and no remarks are called for.

Municipalities.

37. There are no regular municipalities in this Agency but in a few places there are arrangements for local sanitation, the information regarding which is embodied in Appendix XVI.

CHAPTER IV.—Production and Distribution.

38. A statement shewing the rainfall measured at the principal places in the Agency is given in Appendix XVII. The monsoon set in the beginning of June and ceased at the end of September. On the whole the rainfall was good, but owing to insufficiency of rain in the latter part of the monsoon the kharif crop was only 12 annas in the rupee. The winter crop suffered much owing to frost and was about 8 to 10 annas in the rupee. Appendix XVIII gives the prices of staple food-grains in March 1910 and 1911, from which it will appear that the prices remained nearly the same. There was no distress among the people and the labouring classes found sufficient labour. The wages of labour varied from 3 to 4 annas a day for a male, 2 to 3 annas a day for a female and from 1½ to 2 annas for a working child. The highest and lowest temperature recorded in the Sádra Civil Hospital was 106° and 50° against 110° and 50° in the previous year.

Forest.

39. There are no regularly reserved forests in this Agency but those States in which hills and jungles abound derive some revenue from selling the jungle wood and the population of these parts are dependent to some extent on labour obtained in these jungles.

Trade and Manufacture.

40. There is nothing of importance to note under this head except that the dyed cloth exported from Pethápur and Wásna was of the value of Rs. 15,000 and Rs. 52,500 as against Rs. 15,000 and Rs. 37,975 respectively in the previous year. Some of the cloth is exported to Siam and China.

Public Works.

41. Appendix XIX gives information regarding original and repair works. The allotment of funds by Government for the metalling of the Sádra-Dabhoda Road is anxiously awaited.

Post Offices.

42. Nothing to report.

Mint.

43. There is no mint.

General Condition of the States and People.

44. The condition of the people was fairly good and people of all classes were able to earn sufficient to maintain themselves without any difficulty or aid from others. There was no emigration or immigration.

45. Appendix XX gives information about agricultural stock in the Agency. On a comparison of this statement with that of the past year it will be seen that the numbers of bullocks, cows, buffaloes, sheep and goats and ploughs have increased which is a sign of improvement in the condition of the agricultural classes. In Sábar Kántha cattle disease broke out from which about one thousand cattle died.

46. Appendix XXI shews information regarding excise shops and excise revenue of the States and Thána Circles comprised in the Agency. On a comparison of this statement with that of the previous year it will be seen that there is an increase of 8 liquor-shops and 4 gánja-shops but there is a decrease of Rs. 3,362-11-5 in the revenue of country spirit. Throughout the Agency except in Bávishi the outstill system is followed. In order to prevent smuggling of liquor from Mahi Kántha into neighbouring British Districts action was taken to try and persuade the Chiefs of Mahi Kántha, except Idar, Pol and Dánta, to lease their ábkári rights to the British Government on payment of compensation. A Committee was appointed to ascertain the amount of compensation payable to them and the work of the Committee is in progress, and on its completion a report will be submitted to Government for their orders.

47. The quantity of opium supplied to the Native States under Mahi Kántha during the year under report was 3,677 lbs. 7 tolás against 3,807 lbs. 6 tolás 40 grains in the previous year, shewing a decrease of 129 lbs. 39 tolás 40 grains. The total consumption of the drug amounted to 3,437 lbs. 37 tolás 160 grains as against 3,694 lbs. 32 tolás 152½ grains in the previous year. The decrease of 256 lbs. 34 tolás 172½ grains is due to there having been fewer marriages. The average consumption of the drug was 59·9 grains per head of population of 412,688 against 73·8 grains in the previous year. The rate of retail sale during the year was from Rs. 13-12-0 to Rs. 16 and the issue rate of opium from the depôt was from Rs. 7-8-0 to Rs. 8-8-0. Two cases of opium smuggling were detected in which two accused were involved, one of whom was convicted and sentenced to pay a fine of Rs. 10 while the other was acquitted by the Court of the Idar State. The quantity of opium seized in both the cases was 5 tolás and 22½ grains.

48. As in previous years many places in this Agency suffered from an epidemic of plague during the year under report. The areas affected were the State of Idar and the tálukas of Mohanpur, Mánsa, Varsoda, Ilol, Katosan, Ghodasar, Wásna, Bolundra and the Thána Circles of Bávishi and Katosan and also the Sádra Civil Station. The total number of cases and deaths was 1,196 and 555. All possible medical aid was given to the people of the affected areas and inoculation and evacuation were encouraged. Seven hundred and three persons were inoculated at the Civil Hospital, Sádra. During the year under report cholera also appeared in some villages of the Bávishi Thána and the táluka of Ghodasar. The total number of deaths on this account was 42.

49. On the night of the 10th March 1911 final enumeration of Census was taken and the population of the whole Agency was found to be 412,688 against 361,545 in the Census of 1901.

CHAPTER V.—Revenue and Finance.

50. The statements of receipts and expenditure of the Jurisdictional States and tálukas are given in Appendix XXII-B. These accounts are according to the Samvat year.

From these statements it would appear that the States of Pol and Dánta and the tálukas of Málpur, Mánsa, Mohanpur, Varsoda, Pethápur, Ranasan, Khadal, Ghodasar, Ilol, Valasna, Vasna, Sudasna, Rupal, Magodi, Vadagám,

Hapa and Kadoli were able to meet their expenditure for the year from the revenue realized and the opening balance, while the tálukas of Punadra, Katosan, Amaliara, Dábha and Sathamba had to meet the deficiency either by borrowing from *sáhukárs* or from the private purse of the Chiefs. These debts are not large and do not require special remarks, as on some occasions the Tálukdárs have to overdraw from their *sáhukárs* till the receipts of further revenue. However, the following remarks will not be out of place:—

Punadra.—The Miyau met the deficiency from his private purse and his private debt amounts to Rs. 27,088-0-3 against Rs. 28,376-7-2.

Khadal.—The táluka has been able to reduce its debts from Rs. 22,267-4-2 to Rs. 18,866-15-1 which is as under:—

	Rs.	a.	p.
Debt to *sáhukárs*	5,517	15	1
Atarsumba jamabandi	800	0	0
Nazrána on succession	12,549	0	0
	18,866	15	1

Ghodasar.—The táluka has fully paid the Government loan debt and has also reduced its private debt from Rs. 8,623-2-8 to Rs. 8,047-13-6.

Amaliara.—This táluka has fully paid up the guaranteed loan debt but its private debt amounts to Rs. 16,663-7-4.

Dábha.—This táluka has fully paid up the Government loan debt but has a private debt of Rs. 3,722-1-1 incurred by the father of the present Miyan.

Sathamba.—The liability of this táluka on account of Government and guaranteed loan instalment has been paid up but there is a private debt due to *sáhukárs* amounting to Rs. 8,511-6-6.

Vadagám.—This táluka has been able to reduce its debt from Rs. 5,267-1-7 to Rs. 1,488-4-8.

Rupal.—The liability of this táluka amounts to Rs. 2,377-3-1 against Rs. 3,039-11-1 in the last year.

51. There were 18 estates under management in the Agency during the year under report.

The táluka of Khadal which was in charge of the Assistant Political Agent has been transferred to that of the District Deputy Assistant Political Agent since the close of the year pursuant to the orders of Government contained in their letter No. 7035, dated the 5th November 1910.

The managed estates of Maguna and Rámpura are now free from debt, and those of Mohanpur, Ilol and Gabat have also paid a considerable portion of their debt. The village of Jakasna and ½ share in the village of Nugar belonging to the Thákore of Katosan were under Government management for the payment of the Thákore's liabilities on account of Government loan and arrears of tribute. The Thákore paid up the arrears of Government loan and agreed to utilize the annual amount of Rs. 600 which he receives from Government as opium compensation towards the payment of the instalment of the arrears of tribute; both these villages have been removed from attachment. (*Vide* Government Resolution No. 3179, dated the 11th May 1911, Political Department.) A statement marked XXII-B—1 is appended, giving information regarding the managed estates.

52. The statement shewing the recovery of tribute is recorded XXII-B—2 in the appendices as directed in paragraph 10 of Government Resolution, Political Department, No. 5602, dated 20th August 1908.

53. The following statement will shew the accounts of tribute collections and their adjustments during the year:—

Police Subsidy.

54. The following is the account of the Police Subsidy during the year under report :—

	Rs.	a.	p.
Balance recoverable at the commencement of the year 1910-1911	.....		
Demand for the year 1910-1911	1,00,000	0	0
Recovered and credited to Government	1,00,001	0	3
The amount of excess recovery ...	1	0	3

The above details will shew that during the year under report the whole amount payable to Government has been paid.

Stamp Revenue.

55. The amount realized by the sale of Agency Court-fee stamps during the year amounted to Rs. 4,087-8-0 as against Rs. 4,597-1-0 in the previous year.

Agency Local Funds.

53. A statement shewing receipts and expenditure of these funds is appended as Appendix XXII-B—3. It shews that the expenditure was kept below the receipts in the case of all except the Scott College Fund, which shews an increase of Rs. 497-13-6 over its receipts. This is due to an investment of Rs. 2,000 in Government securities from its surplus balance. Also the invested balance of the Agency General Fund was augmented by Rs. 8,100. The closing cash balance of all these funds amounted to Rs. 71,610-8-7 against Rs. 56,734-2-2 in the previous year. Another statement marked Appendix XXII-B—4 is also attached to shew the financial condition of the various Thána and Local Cess Funds. It shews expenditure in excess of receipts in the case of Bávishi and Gadhwáda Thána Local Cess Funds. This is due to the fact that a sum of Rs. 549 was advanced as *tágávi* to cultivators in Bávishi and in the case of Gadhwada a sum of Rs. 1,771-4-6 was paid towards Government loan debt due by the thána. The closing cash balance of these funds for the year under report amounted to Rs. 53,121-2-5 against Rs. 45,142-2-9 in the preceding year.

Government Loan.

57. The total amount of Government debt of the States and Thána Circles under this Agency at the commencement of the year amounted to Rs. 6,83,360-4-0, out of which a sum of Rs. 65,546-14-6 was repaid during the year, leaving a balance of Rs. 6,17,813-5-6. During the year under report the tálukas of Ghodasar, Katosan, Likhi, and the Thána Circles of Katosan and

Watrak Kantha, as well as certain shareholders in the Katosan Thana Circle have fully paid off their Government Loan debts, *vide* statement marked Appendix XXII-B—5.

CHAPTER VI.—Vital Statistics.

58. Statistical information about the work of the Civil Hospital at Sádra and other dispensaries maintained by the States and Thana Circles in the Agency is given in Appendix XXIII. The total number of operations in Sádra Civil Hospital was 497 against 452 in the previous year.

59. The sanitation of the Sádra Civil Station is well looked after by the Huzúr Deputy Assistant Political Agent and the Assistant Surgeon. In other places the Thandars, Chiefs, Managers, etc., attend to this duty.

60. The expenditure incurred in affording medical relief in the Agency amounted to Rs. 14,289-7-7 against Rs. 13,933-11-2 in the previous year. The question of providing a dispensary at Mohanpur has been dropped for the present by Government owing to the indebted condition of the Mohanpur Táluka. The work of constructing the building for the dispensary at Punadra has been entrusted to the Executive Engineer, Kaira and Panch Mahál, and funds have been placed at his disposal for the work. The plant and tool charges for this work have been remitted by Government in their Resolution, Public Works Department, No. A-2506, dated 25th November 1910. The Thakore of Varsoda has made arrangements to give medicines free of charge to his subjects.

Vaccination.

61. There are 4 vaccinators and one Vaccination Inspector in the Agency. The total number of primary vaccination was 6,267, while that of re-vaccination was 28. Out of the total number of cases of vaccination, *viz.* 6,295, there were 6,197 successful and the average cost of each successful case was Re. 0-5-9.

Births and Deaths.

62. A statement of births and deaths is given in Appendix XXIV. No special arrangements for registering births and deaths are in existence but these registers are kept by Revenue or Police Patels of the villages. They are not accurate and therefore the figures given may be taken as approximate.

CHAPTER VII.—Education.

63. Appendix XXV gives information regarding schools maintained in the Agency. One school at Sametri under Bavishi Thana and one girl-school at Amliara were newly opened. The total cost of education amounted to Rs. 22,438-0-8 as against Rs. 20,833-4-6 in the previous year.

Scott College.

64. At the commencement of the year there were 31 Kumars on the College Roll. During the year there was no admission and 4 left, leaving 27 Kumars in the College at the close of the year. The distribution of the Kumars in the College is as under :—

Mahi Kántha	...	...	...	21
Pálanpur Agency	...	...	...	1
Ahmedabad District	...	...	...	4
Baroda	...	...	...	1
				27

The average daily attendance was 21·3 against 25·5 in the previous year. The annual examination had to be postponed on account of plague prevalent in Sádra in the months of August, September and October 1910. The health and physical development of the Kumars are well looked after. Owing to withdrawals of the Mahomedan Kumars, the Mahomedan mess was discontinued. The general behaviour of the Kumars was satisfactory. A swimming bath in the compound of the College has been constructed for the Kumars out of the Memorial Fund of Kumar Jagatsingji of Varsoda, started by the Kumars of the College to perpetuate his memory. During the year under report the Honourable Mr. H. O. Quin, Commissioner, Northern Division, visited the Scott College while encamped at Sádra and was pleased with the progress of the Kumars and approved of the mess-system.

65. Kumar Shri Bhawansingji of Danta is studying at the Mayo College, Ajmere. The Principal of the College in his report says : "He has worked very well and made good progress; he fully deserves his promotion to class VI; he is remarkably keen at games as well as work, and his general behaviour is excellent." This Kumar gives great promise and is an exceedingly nice well-mannered boy.

CHAPTER VIII—General.

66. There is one printing press in the Agency called the Mahi Kántha Press and the name of the proprietor is Shah Vadilal Lalloobhai who does not publish any newspaper or periodical but only does printing work. The Editor of the Mahi Kántha Gazette publishes his paper at Ahmedabad.

Library.

67. Sádra has a library called the Mahi Kántha Victoria Memorial Library and Free Reading Room. Its financial condition is good, there being a balance of Rs. 7,000 invested in Government securities. There are small libraries at Mansa, Amliara, Dabhoda and Pethapur.

68. Three candidates appeared at the Higher Standard Examination held at Rájkot in January last and all passed. In the Subordinate Agency Service and Lower Standard Examinations held at Sádra, 3 and 1 candidates appeared respectively, out of whom 2 were successful in the former, the others failing to pass.

69. A skeleton map of the Mahi Kántha Agency is appended hereto.

Conclusion.

70. During the year under report Mr. Lang has remained as my Assistant and worked to my entire satisfaction in every way; his work as Superintendent of Police has also been very good. Messrs. Dulerai and Gadhkari, the Deputy Assistants, have also done well in their respective departments. Mr. Gadhkari has a specially heavy charge which has been increased lately by the addition of Khadal.

My Head Clerk Mr. Umiashanker and my Sheristedar Mr. Ranchhodlal have also given me satisfaction in the discharge of their duties which are not light. They are both capable, hard-working, painstaking men well up in their work. The rest of the establishment has also worked satisfactorily on the whole with one or two exceptions.

I have the honour to be,
Sir,
Your most obedient servant,
G. E. HYDE-CATES,
Lieut.-Colonel,
Political Agent, Mahi Kántha.

MAJOR N. S. COGHILL,
Political Agent, Mahi Kántha;

To

THE CHIEF SECRETARY TO GOVERNMENT,
Political Department, Bombay.

Mahi Kántha Political Agency:
Dated Sádra, 8th July 1912.

Sir,

I have the honour to submit the Annual Administration Report of the Mahi Kántha Agency for the year ending 31st March 1912. The State of I'dar, the only first class State under this Agency, submits its own annual report and it is therefore not included in this.

CHAPTER I.—GENERAL AND POLITICAL.

2. This Agency lies in the extreme north-east corner of the Bombay Presidency. It is bounded on the north by the hilly tracts of Mewar and Sirohi; on the east by Dungarpur, Rewa Kántha and Kaira Collectorate; on the south by the States of Lunáwáda and Bálásinor, the Collectorates of Kaira and Ahmedabad and the Dehgam Máhal of His Highness the Gaikwar of Baroda; on the west by the Máhals of Kherálu and Vijápur and the Kádi Pránt of His Highness the Gaikwar and the Pálanpur State. Its area is 3,124 square miles and population is 412,688 including that of the I'dar State, which is 210,095.

Tours.

3. In the beginning of the year my predecessor Lieutenant-Colonel G. E. Hyde-Cates was encamped at Dánta whence he proceeded to Ahmednagar *viá* Pálanpur on the 20th April 1911. 21st July 1911 was fixed for the installation of His Highness Mahárájdolatsinha as Mahárája of I'dar and the usual ceremonies were performed by him there on that date. He revisited Dánta on the 28th September 1911 to perform the opening ceremony of 'Jaswant Vilas,' built in memory of the late Mahárána Jaswatsingji of Dánta. Owing to the failure of the last monsoon, the want of fodder was keenly felt all over the Agency except in the States of Dánta, Polo and the Táluka of Sudásna. With a view to examine famine conditions prevailing in the area affected, my predecessor, Major J. W. B. Merewether, travelling light with a limited kit on camels visited Báwisi and Vatrak Kántha Thána Circles, Punádra and Ambliára Tálukas in the month of December last; the Tálukas of Pethápur and Katosan and Katosan Thána Circle in the month of January; Ahmednagar, I'dar, Gadhwáda Thána Circle, the Tálukas of Sudásna, Valásna, Ilol, Mansa and Sábar Kántha Thána Circle in the month of February last.

4. The Assistant-Political Agent commenced his tour on the 14th May 1911 and held a Border Court with Sirohi. During his tour he visited all the Tálukas and Thána Circles under his charge and examined famine conditions prevailing there. He made the usual inspection of judicial records and public institutions in the Tálukas of Sathámba and Mágodi.

5. The District Deputy Assistant made a long tour in the district assigned to him. He visited all the villages in the Tálukas and Thána Circles under his charge. He examined the accounts of all the managed estates under his charge and inspected the records of the Thánás of Katosan, Sábar Kántha and Gadhwáda.

He also visited Valásna which was the only jurisdictional Táluka under his charge and found the condition of the Táluka and the records very unsatisfactory and the Táluka had consequently to be taken under attachment under the orders of Government contained in their letter No. 3266, dated the 15th April last.

Principal Events.

6. *Dánta.*—Ráj Sáheb Bhimsingji, uncle of the Mahárána, died on the 28th December 1911.

Mansa.—Anandiba, daughter of the Ráwalji of Mansa, was married to Indrasingji, heir-apparent of Vansda State under Surat Agency.

Warsoda.—A son and heir was born to the Thákore on the 18th October 1911. He is named Mansingji.

Ambliára.—A son and heir was born to the Thákore on the 11th January 1912.

Khádal.—Ratansing, minor Myan of Khádal, who was studying in the Scott College, Sádra, died of small pox at Sádra on the 6th February 1912 and the succession of his younger brother Fatehsingji was sanctioned by Government in their letter No. 2183, dated the 8th March 1912.

Sathámba.—Thákore Vajesingji married the daughter of the Thákore of Anior.

Gábat.—Thákore Rupsingji was invested with powers of a seventh class jurisdictional chief as per Government Resolution, Political Department, No. 5531, dated the 10th October 1911. Since then the Táluka has been placed under the charge of the Assistant Political Agent, Mahi Kántha. The Thákore married the daughter of the Thákore of Prempur under the Sábar Kántha Thána Circle.

Coronation.

The Chiefs of Polo, Dánta, Málpur and Mansa were invited by Government to be present at the Apollo Bunder on the 2nd December 1911 to assist in receiving Their Imperial Majesties the King-Emperor and the Queen-Empress but only the Mahárána of Dánta and the Ráwalji of Mansa were able to attend. The Mahárána subscribed a sum of Rs. 1,000 to the Coronation Fund. Ráwalji Dipsingji of Málpur was given, as a personal recognition, enhanced powers to entertain criminal cases punishable with seven years rigorous imprisonment and Rs. 10,000 fine and civil cases up to Rs. 20,000. The Táluka of Katosan was restored to its former status of a third class State under the orders of the Government of India contained in their letter No. 1777-I. A., dated the 19th August 1911, which were communicated in their Memorandum No. 6270, dated the 7th September 1911, Political Department. The jurisdictional powers of Thákore Prathisingji of Sudásna were raised, as a personal distinction, to the trial of criminal cases punishable with imprisonment for two years and fine up to Rs. 2,000 and civil cases up to the value of Rs. 5,000. Certificates for meritorious service were granted by His Excellency the Governor in Council, Bombay, as per Government Resolution, Political Department, No. 5799-D., dated the 6th December 1911, to the following officers in this Agency :—

Mr. Vinayak Ganesh Gadkari, District Deputy Assistant.

Mr. Shaikh Ahmed Daud, Head Quarter Chief Constable.

Mr. Asgar Hussein Khan Kadar Ali Khan, Risáldar.

7. Appendix I gives information about the principal officers of the Agency and changes in the personnel. Lieutenant-Colonel G. E. Hyde-Cates performed the duties of Administrator of the I'dar State in addition to his own during the absence of His Highness Mahárája Sir Pertapsinhji at the Coronation of Their Imperial Majesties in London as per Government Resolution, Political Department, No. 3006-D., dated the 5th May 1911.

CHAPTER II.—Administration of Land.

8. The system of revenue administration and recovery is not uniform in all the States and Tálukas. In some it is levied in kind and cash, while in others it is levied in cash alone. Except in the managed estates, the Chiefs manage their revenue affairs.

9. The following particulars may be stated under this chapter :—

Mohanpur Táluka.—The Bighoti system was introduced in 17 villages out of 55 in the Táluka. The rates of Bighoti were revised in the villages of Kherádi and Manorpur. 864 bighás of waste land were newly taken under cultivation.

Pethápur.—The Bighoti system was introduced in the Táluka of Pethapur except Gadha where the Kaltar system still prevails.

Ilol.—107 bighás of land were newly taken under cultivation. An enquiry about alienated lands was commenced and two alienation cases were disposed of.

Khadál.—Eleven alienation cases were disposed of.

10. The four important boundary disputes between Dánta and Satlásna were disposed of by my predecessor Lieutenant-Colonel G. E. Hyde-Cates, and Satlásna has appealed to Government against this decision. Three appeals regarding Khárá-Kutrá Máriá, Paháda Chitáriá and Demat-Rámpúri are pending the decision of the Honourable the Agent to the Governor-General, Rájputána.

CHAPTER III.—Protection.

11. None of the States under this Agency has its own rules and regulations, and the adoption of the spirit of the laws and regulations in force in British India is the guiding principle except those referred to in Appendix II.

12. *Military Force.*—None of the States except I'dar maintains a military force (*vide* Appendix III).

13. *Police.*—There are two kinds of Police, *viz.*, Agency and State Police. The Agency Police is maintained from the Police subsidy which is recovered from the tribute payable to His Highness the Gaikwar. The Native State Police is maintained by the States concerned. The Agency Police has its own duties in the Sádra Civil Station and the Thána Circles under the Agency which are under the direct and permanent administration of the British Government. There are also outposts of the Agency Police in the Rehwar Zilláh under the control of the Rehwar Zilláh Foujdár. The duty of this Foujdár is to carry on Police duties in the non-jurisdictional Tálukas in the Rehwar Zilláh and to see that the State Police of the jurisdictional Chiefs in Rehwar Zilláh work properly, and to assist them whenever required.

14. The financial condition of the Pethápur Táluka having improved, the detachment of the Agency Police was withdrawn in May 1911 and replaced by the Táluka Police. The jurisdictional Tálukas of Hápá, Gábat and Kadoli are too poor to maintain their own Police. The managed estates of Mohanpur, Ilol, Pethápur, Khadál and Valásná maintain their own Police but owing to their being under Government management, their Police are kept under the supervision and control of the Superintendent of Police, Mahi Kántha.

15. The strength of the Agency Police during the year was the same as in the previous year, *viz.*, 394 foot and 121 mounted and the total cost was Rs. 1,23,190-0-1 against Rs. 1,16,607-3-3 in the previous year. The increase is due to more expenditure on account of grain compensation and contingencies.

16. The Agency Police has to supervise an area of 469 square miles with a population of 85,297. The ratio of Police to population and area in square miles is 155·9 and ·9 respectively. The Agency Police are armed with smooth bore muskets with the exception of squads of 38 foot and 25 mounted Police who are armed with Martini Henry Rifles.

17. The percentage convicted of accused sent for trial by the Agency Police is 72·7 during the year against 67·02 last year. The percentage of recoveries of stolen property is 64·6 against 67·4 in the previous year. The result of the work done by the Agency Police is on the whole satisfactory.

18. The strength of the State Police is 346 foot and 65 mounted against 312 foot and 63 mounted in the previous year. The cost of this Police amounted

to Rs. 36,527-7-7 against Rs. 33,727-8-10 in the previous year. The area under the supervision of the State Police is 1,006 square miles with a population of 124,580. The ratio of Police to area and population is 2·44 square miles and 303·1 men per Policeman. The State Police are for the most part armed with swords and muzzle-loading muskets and are undrilled and untrained men.

19. The percentage convicted of accused sent for trial by the State Police is 49·3 against 64·2 in the previous year; the percentage of recoveries of the propery stolen is 37·9 against 26·5 in the year before. The work of the State Police is therefore far from satisfactory so far as the percentage convicted of accused sent for trial is concerned.

20. For detailed information as to the strength and cost of the Agency and State Police, *vide* Appendix IV and as to the work done by them, *vide* Appendices V, VI and VII. There was no serious robbery or dacoity and the public peace was preserved throughout the year.

21. *Village Police.*—In this Agency there is no regularly paid village Police. The Police Patels in the Thána Circles are appointed by the Political Agent. The duties of the Police Patels are generally performed by the Revenue Patels and the duties of watchmen are performed by men directly appointed by the village community, who are remunerated either in cash or grain per house and in some cases by land given by the village owners.

22. The work done by the Political Agent as Sessions Judge is shown in the statement below :—

23. The crimimal work done by the various Agency and Native State Magisterial Courts is shown in Appendix VIII and that of the Appellate Court of the Political Agent is shown in Appendix IX.

24. In the month of May 1911 a border Court was held by Lieutenant L. E. Lang, Assistant Political Agent, Mahi Kántha, with Captain W. G. Hutchinson, Assistant to the Agent to the Governor General, Rájputána, to dispose of Sirohi-Mahi Kántha cases. The work done by this Court is shown in the statement below :—

25. The Civil work performed by the Agency and Native State Court is shown in Appendices X, XI and XII. In the Agency Courts there was a balance of 23 cases in the beginning of the year and 135 new cases were filed during the year, making a total of 158, out of which 142 were disposed of, leaving a balance of 16 at the close of the year against 23 in the previous year. In the Courts of the Jurisdictional Chiefs there was a balance of 132 cases at the end of the last year and 361 new cases were filed during the year, making a total of 493, out of which 372 were disposed of during the year, leaving a balance of 121 at the close of the year against 132 in the previous year. Out of 121 cases in arrears those of the Courts of Mánsa and Wásna amount to 93.

26. Appendix XI shows the result of applications for execution of decrees. In the Agency Courts there was an opening balance of 16 applications and 62 were received during the year, making a total of 78, out of which 68 were disposed of, leaving a balance of 10 against 16 in the previous year. In the Native State Courts there was a balance of 89 applications at the commencement of the year and 280 were newly received, making a total of 369, out of which 281 were disposed of during the year, leaving a balance of 88 against 89 in the previous year.

27. Appendix XII shows the work done by the Agency Civil Appellate Courts. In the Court of the Political Agent there was an opening balance of 11 and 8 were newly received, making a total of 19, out of which 7 were disposed of, leaving a balance of 12 against 11 in the previous year; also 3 appeals were disposed of by the Assistant Political Agent and the District Deputy Assistant during the year, leaving none in arrear.

28. Three revision applications under section 115 of the Civil Procedure Code were received and there were 10 in arrear, making a total of 13, out of which 6 were disposed of, leaving a balance of 7 at the close of the year.

29. No application under section 104 of the Civil Procedure Code was received during the year and 2 were in arrears, out of which 1 was disposed of, leaving a balance of 1 at the close of the year.

Political Work.

30. The work done by the Courts of the Political Agent and the Assistant Political Agent is given in the statement below :—

Appeals to Government.

31. Orders were received from Government during the year on 25 appeals which were of the following nature :—

18	Political.
1	Civil.
6	Miscellaneous.
25	

The result of these appeals is as under :—

20	rejected.
1	withheld.
4	allowed.
25	

Out of these 25 appeals, 4 were addressed to the Government of India and 2 to the Secretary of State for India.

Extradition.

32. The system of reciprocal arrangement for the extradition of offenders between Mahi Kántha on the one side and the British Districts and the States of Baroda and others is working satisfactorily. The introduction of a similar arrangement with the States in Rájputana is a *desideratum.*

Prisons.

33. Appendix XIII gives information regarding Agency and Native State Jails and lock-ups. The health, treatment and general conduct of all the prisoners were good and the jail buildings are suitable for existing requirements.

Registration.

34. Appendices XIV and XV give the required information about registration of documents and no remarks are called for.

Municipalities.

35. There are no regular Municipalities in this Agency but in a few places there are arrangements for local sanitation, the information regarding which is given in Appendix XVI.

CHAPTER IV.—Production and Distribution.

36. A statement showing the rainfall measured at the principal places in the Agency is given in Appendix XVII. The monsoon of 1911 set in in the beginning of June but it was far from satisfactory. Its currents were neither strong nor steady, although it arrived upwards of a fortnight before its normal date. It was not very vigorous except on the 15th June and the 8th July 1911; since when a long break was experienced with the exception of a few feeble rallies in the beginning of September. Consequently the grass and unirrigated crops which are the main stay of this District suffered considerably. Nothing or very little was obtained from the monsoon crop which was not irrigated and the people betook themselves to raise irrigated crops in the beds of rivers, tanks, streams and by well water, where it was possible. The famine was twofold:—

(1) Fodder famine.

(2) Water famine in Katosan Táluka and Thána.

The fodder famine commenced in the beginning of October. The Chiefs and people were advised accordingly to take steps to preserve their cattle by throwing open all State forests and grazing lands and by raising fodder wherever irrigation was possible. As a result of all these efforts the best of the cattle and specially the bullocks have been saved. Cattle disease was prevalent in some parts but it was not very virulent. However, 10,341 cattle out of 205,390 died of small-pox, old age, and other causes. The mortality among cattle on account of scarcity of fodder was kept within bounds as far as practicable. The exact statistics are not available and the figures given may therefore be taken as approximate.

37. The rainfall being deficient everywhere the monsoon crops failed in all places except in Polo, Dánta and Sudásna. There was not sufficient moisture in the soil in Katosan Thána, the water being saline in many places, the outturn of winter crop was also not satisfactory. The monsoon crops were irrigated with well water in most places and the outturn of such crops was 6 to 8 annas a rupee. The irrigated winter crops were on an average 6 annas a rupee. Appendix XVIII gives the prices of staple food-grains in March 1911 and 1912, from which it will appear that prices have risen considerably. Labourers did not suffer any hardship as they obtained sufficient wages in their villages and that is one of the reasons why no need was felt for opening a relief work in the Agency during the year. As a precautionary measure, the programme of famine relief works was kept ready by preparing plans and estimates for the tanks at Mahisa, Porda, Amraji-na-muada, Virpur, Palaj, Nugar, Devinapura and Santhal and Santhal-Jhotana Road through Overseer Mr. Y. K. Phadke, whose services were placed at the disposal of the Agency by Government. The wages of labour varied from 3 to 4 annas a day for a male, 2 to 3 annas for a female and from 1½ to 2 annas for a working child. The highest and lowest temperature recorded in the Civil Hospital at Sádra was 108 and 59 against 106 and 50 in the previous year.

Forests.

38. There are no regularly reserved forests in the Agency but those States in which hills and jungles abound derive some revenue from selling the jungle wood and the population of these parts are dependent to some extent on labour obtained in these jungles. The State of Polo derived during the year revenue to the extent of Rs. 9,127 on account of sale of grass, timber, etc.

Trade and Manufacture.

39. There is nothing of importance to note under this head except that the dyed cloth exported from Pethápur and Wásna was of the value of Rs. 14,000 and Rs. 50,400 as against Rs. 15,000 and Rs. 52,500 in the previous year. Some of the cloth is exported to Siám and Chiná.

Public Works.

40. Appendix XIX gives information regarding original and repair works. The allotment of funds by Government for the metalling of the Sádra-Dábhoda Road is awaited. The I'dar Khed Bràhmà Extension Railway was opened in the month of July 1911. The earth work of Ambaji Tárangá Light Railway is in progress in Gadhwáda Thána and affords wages to the local labourers. The earthwork of the extension of the Nadiád-Kapadwanj Railway to Málpur and Meghraj was sanctioned to be commenced as a famine relief work and the States whose subjects are relieved were asked to pay their share of the cost but His Highness the Mahárája of I'dar and the Rawalji of Málpur in whose territory the line passed refused to contribute in respect of the labour obtained by their subjects.

Post Offices and Mint.

41. Nothing to report.

General Condition of the States and People.

42. The condition of the people was fairly good and all classes were able to earn sufficient to maintain themselves without much difficulty. Many labourers sought employment in the mills at Ahmedabad. Twenty-three men immigrated from Tharád State under Pálanpur Agency into the town of Mánsa in the month of December last and 12 families immigrated from Lunáwáda State under the Rewa Kántha Agency into the Magodi Táluka in search of means of livelihood. Two hundred and twenty-seven persons left temporarily Warsoda Táluka for irrigation on wells and labour.

43. Appendix XX gives information about agricultural stock in the Agency. Owing to failure of the monsoon the want of fodder was keenly felt all over the Agency except in Polo, Dánta and Sudasna. As soon as the position was realized, arrangements were made for distribution of Tagávi for the improvement of existing wells and the construction of new ones, both Puccá and Kachâ, with a view to bringing as much land under irrigation as possible, for the production of fodder crop. Before the close of the year under report, 619 Puccá wells, 904 Kachá wells, 1,807 Dekwas and Chanchwas were newly constructed. To supplement these measures, arrangements were made by Major Merewether to import as large a quantity of grass as possible from the Conservator of Forests, Berar Circle, and the Bombay Central Famine Relief Fund. Grants of famine loans were obtained from Government for these purposes. Sixty-five lákhs of lbs. of grass were promised by the Honourable Mr. G. P. Millet, Conservator of Forests, Central Circle, and 17,41,653 lbs. of grass have since been received from the Berar Circle at the rate of Rs. 12 per 1000 lbs. 357,789 lbs. of grass were received before the close of the year. A free grant of Rs. 18,000 was sanctioned for this Agency by the Bombay Central Famine Relief Fund Committee for cattle relief and grass was sold at cheap rates to the cultivators of the Thána Circles of Báwisi, Katosan and Sábar Kántha and the Managed Estates of Khadál, Pethápur and Ilol. Before the close of the year under report, 1,096,984 lbs. of grass was received from the Relief Fund Committee and 1,944,144 lbs. of grass have been received in all up to the 25th June 1912. Owing to the shortage of waggons, great difficulty was experienced in booking grass in time; so arrangements had to be made for purchasing grass from local contractors. 708,610 lbs. of grass have been purchased from contractor Mr. Dinshaw Pestonji Ginwalla. In this connection I should bring to the notice of Government the help rendered by Rao Shree Bhupatsingji of Polo State in admitting on payment 3,000 cattle from other parts of the Agency into the forests of the State where grass was abundant. He made good arrangements with the help of his Bhil population for the safety of the cattle in the forests of the State where wild animals abound. The Thakore of Dedhrota also allowed on payment the cattle of the Agency to graze in the grass land of the táluka, but the area being very limited, the grass was soon exhausted and the cattle had consequently to resort to other places.

The prompt and efficient measures thus taken by Major Merewether and the encouragement given by him to the construction of new wells by the ready grant of Tagávi have saved the lives of valuable agricultural stock, and have given employment to many cultivators who with their families either would have left their villages in despair or would have been reduced to destitution.

The Agency also owes a debt of thanks to the Honourable Mr. Millet and the officers of his Department for their valuable co-operation in the supply of forest grass, which would have been even more effective had not the deficiency of waggons frustrated their efforts to a large extent.

Last but not least, the grass supplied by the Central Famine Fund Committee for sale at cheap rates has been a great boon to the poorer cultivators of this Agency, and the Honorary Secretary Mr. Parshotamdas has been ever ready to comply with indents from this office so far as the resources at his disposal permitted.

44. Appendix XXI gives information regarding excise shops and excise revenue of the States and Thána Circles comprised in the Agency. On a comparison of this statement with that of the previous year, there is a decrease of 2 liquor shops and 4 Gánja shops and of Rs. 17,856-1-5 in the excise revenue. Throughout the Agency except in Báwisi the out-still system is followed. After protracted negotiations, all the States, tálukas and Thánas except I'dar, Dánta, Polo and Mánsa have agreed to grant leases for three years in consideration of receiving annual compensation equal to their average receipts for the last five years plus 25 per cent. to cover all possible increases. In the case of Mánsa Táluka, it has been decided by Government in their letter No. 3741, dated the 2nd June 1911, Political Department, that the Rawalji should be paid an annual compensation equal to the actual realizations in the táluka. It has been decided by Government to take

over the A'bkári administration from the 1st October next, in their letter No. 3624 dated the 29th April 1912. A monopoly of sale of liquor has been given to Messrs. Jamsedji Nusservanji and Hormasji Jamsedji Ginwalla for 3 years. The license is on the same conditions as the Sankheda Mewas license except that there should be no minimum guarantee, that the licensee should build a distillery and that he should pay a contribution not exceeding Rs. 5,000 a year for Government establishment. A site at Dabhoda was given to the licensee by the Agency and the distillery is being constructed there. A draft of an agreement to be taken from the Chiefs of this Agency regarding the lease of their A'bkári rights to Government has been drawn up and sent to the Commissioner of Customs, Salt, Opium and A'bkári, Bombay, for approval as directed by Government in their letter No. 3459 dated the 22nd April last.

45. The quantity of opium supplied to the Native States under this Agency during the year was 3,461 lbs. 30 tolás 40 grains against 3,677 lbs. 7 tolás in the year before, showing a decrease of 215 lbs. 16 tolás 140 grains. The total consumption of the drug amounted to 3,215 lbs. 24 tolás 118$\frac{1}{8}$ grains as against 3,437 lbs. 37 tolás 160 grains in the previous year, showing a decrease of 222 lbs. 13 tolás 41$\frac{7}{8}$ grains which can be attributed to decreased consumption of the drug by the people on occasions of marriage, death, etc. The average consumption of the drug was 53·2 grains per head of population of 412,688 against 59·9 grains in the previous year. The rate of retail sale during the year was from Rs. 14-12-0 to Rs. 16-0-0 and the issue rate of opium from the depôt was Rs. 8-8-0 throughout the year. One case of opium smuggling was detected in which one accused was involved and he was convicted and sentenced by the Court of the Idar State. The quantity of opium seized in the case was 5 tolás and 45 grains. The annual allotment of duty free opium for this Agency was reduced from 5,860 lbs. to 5,285 lbs. for the quinquennial period commencing from 1908-09 to 1912-13.

46. As in the previous years many places in this Agency suffered from an epidemic of plague during the year. The areas affected were the State of Idar and the tálukás of Mánsa, Katosan, Khádal, Ilol and the Thána Circles of Báwisi and Katosan. The total number of cases and deaths was 49 and 25. All possible medical aid was given to the people of the affected areas and inoculation and evacuation were encouraged.

CHAPTER V.—Revenue and Finance.

47. The statements of receipts and expenditure of the jurisdictional States and tálukás are given in appendix XXII-B. These accounts are according to the Samwat year.

Dánta State.—The total receipts of the State amounted to Rs. 85,415-9-0 while the expenditure amounted to Rs. 89,483-4-0 which exceeded the receipts. The Mahárána supplemented the deficit from his private purse.

Malpur.—The receipts and expenditure of the táluka show a decrease as compared with those of the previous year.

Mánsa—The expenditure of the táluka exceeds the receipts by Rs. 43,287-2-3 which is due to the celebration of the marriage of Anandiba, daughter of the Rawalji of Mánsa.

Ranasan.—The receipts of the táluka amounted to Rs. 5,354-4-9 as against Rs. 18,006-12-8 in the previous year. The decrease is due to famine. The expenditure amounted to Rs. 13,785-5-2 against Rs. 14,943-6-8. The decrease is due to the fact that tribute has not been paid.

Punadra.—The receipts amounted to Rs. 17,389-4-2 against Rs. 18,234-6-4 in the previous year. The decrease is due to scarcity. The expenditure amounted to Rs. 30,841-4-5 as against Rs. 19,570-2-0 in the previous year. The increase is due to the payment of private debts. The deficit was met by the Myan from his private purse. The táluka has a private debt of Rs. 12,659-15-10.

Ghodasar.—The táluka has a debt of Rs. 900 on account of Government loan and Rs. 5,955 due to Shahukars. The figures of total receipts and expenditure include an item of Rs. 5,099-14-4 on account of remission to cultivators.

Amliara.—The receipts of the táluka amounted to Rs. 33,354-15-5 against Rs. 35,290-2-5 in the previous year. The decrease is due to famine. The expenditure amounted to Rs. 34,518-15-6 as against Rs. 37,919-6-6 in the previous year. The private debt of the táluka amounts to Rs. 1,188-8-6.

Sudasna.—The receipts amounted to Rs. 18,080-7-2 while the expenditure amounted to Rs. 19,047-14-7. The expenditure exceeded the receipts by Rs. 967-7-5 which was met from the closing balance of the previous year. The sum of Rs. 7,781-9-6 under the head miscellaneous includes Rs. 4,300 for ornaments.

48. The other tálukas do not require any special remarks except that their indebtedness is as under :—

49. There were 16 estates under Ageney management during the year. A statement marked XXII-B_1 giving information regarding the managed estates, is appended hereto.

50. The statement showing the recovery of tribute is recorded XXII-B_2 in the appendices as directed in paragraph 10 of Government Resolution, Political Department, No. 5602, dated the 20th August 1908.

51. The following statement will show the accounts of tribute collection and their adjustments during the year :—

This balance remains unrecovered on account of famine.

Stamp Revenue.

53. The amount realized by the sale of Agency Court-fee stamps during the year amounted to Rs. 2,795-12-0 as against Rs. 4,087-8-0 in the previous year. The decrease is due to the comparatively small number of suits filed on account of famine, as also to postponement of execution of civil decrees during the latter part of the year on account of famine.

Agency Local Funds.

54. A statement showing receipts and expenditure of these funds is appended as Appendix XXII-B_3. The decrease in the receipts of all these funds amounts to Rs. 57,642-4-11 as compared with those of the previous year. This was due to famine. Another statement marked Appendix XXII-B_4 is also attached to show the financial condition of the various Thána and Local Funds. The expenditure of these funds exceeded the receipts by Rs. 9,373-15-6. The decrease in receipts of these funds during the year as compared with those of the previous year amounts to Rs. 45,060-8-7 which is due to famine. The invested balance of the Scott College Fund was augmented by Rs. 1,000 during the year.

Government Loan.

55. The total amount of Government debt of the States and Thána Circles under this Agency at the commencement of the year amounted to Rs. 6,17,952-0-7 and a fresh loan of Rs. 3,07,000 was advanced, making a total of Rs. 9,24,952-0-7 out of which Rs. 37,186-4-2 was repaid during the year, leaving a balance of Rs. 8,87,765-12-5 outstanding on the 31st March 1912. A statement of Government and guaranteed loan for the year 1911-12 is marked Appendix XXII-B_5.

CHAPTER VI.—Vital Statistics.

56. Statistical information about the work of the Civil Hospital at Sádra and other dispensaries maintained by the States and Thána Circles in the Agency is given in Appendix XXIII. The total number of operations in Sádra Civil Hospital was 543 against 497 in the previous year.

57. The sanitation of the Sádra Bazar is well looked after by the Hazúr Deputy Assistant Political Agent and the Assistant Surgeon. In other places, the Thandars, Chiefs, Managers, etc., attend to this duty.

58. The expenditure incurred in affording medical relief in the Agency amounted to Rs. 13,870-8-7 against Rs. 14,289-7-7 in the previous year.

Vaccination.

59. There are 4 vaccinators and 1 vaccination Inspector in the Agency. The total number of primary vaccinations was 6,710 while that of re-vaccinations

was 24. Out of the total number of cases of vaccination *viz.* 6,734, there were 6,641 successful and the average cost of each successful case was Re. 0-5-4.

Births and Deaths.

60. A statement of births and deaths is given in Appendix XXIV. No special arrangements for registering births and deaths are in existence, but these registers are kept by Revenue or Police Patels of the villages. They are not accurate and therefore the figures given may be taken as approximate.

CHAPTER VII.—Education.

61. Appendix XXV gives information regarding schools maintained in the Agency. One school at Ambalia in Magodi táluka was closed for want of pupils. The total number of pupils on the registers was 4,802 against 4,369 in the previous year. The total cost of education amounted to Rs. 22,093-8-5 as against Rs. 22,438-0-8 in the previous year. There are five Bhil schools in the Idar State and one Bhil school in the Polo State managed by the Missionaries. These schools are at Bavalia, Lusadia, Biladia, Chitaria and Ghodadar. The Reverend Mr. Hodgkinson gives valuable assistance to the cause of education in these hilly parts of the Agency in imparting knowledge to the Bhils among whom education is almost unknown. One school at Sarsan in the Polo State had to be closed for want of pupils. The number of pupils on the registers of these Bhil schools was 161 against 175 in the previous year.

Scott College.

62. At the commencement of the year there were 27 Kumars on the College roll. During the year 5 were newly admitted and 10 left the College, while one Kumar, Ratansingji of Khadal, died of small-pox on the 6th February last. The number of Kumars at the close of the year was 21 and the distribution is as under:—

Mahi Kántha	...	...	...	16
Pálanpur Agency	...	...	...	2
Ahmedabad District	...	...	...	3
				21

The average daily attendance was 17·8 against 21·3 in the previous year. The annual examination was held in the month of September last and 16 out of 21 passed and 5 failed under one head. The health and physical development of the Kumars are well looked after. The general behaviour of the Kumars in the College was satisfactory. The question of making the College staff pensionable was put before Government by Major Merewether with full details, but Government have decided that the question may be dropped for the present.

63. Kumar Shri Bhawansingji of Danta is studying in the Mayo College at Ajmer. Mr. C. W. Waddington, Principal of the College remarks:—'He has done very well again this year and passes the annual examination most creditably in all subjects. He is still quite young and promises exceedingly well for the future. In the play ground he is keen and active, and is thoroughly well behaved.'

CHAPTER VIII.—General.

64. There is one printing press in the Agency called the Mahi Kántha Printing Press and the name of the proprietor is Shah Vadilal Lalloobhai who does not publish any newspaper or periodical but does only printing work. The editor of the Mahi Kántha Gazette publishes his paper at Ahmedabad.

Library.

65. Sádra has a library called the Mahi Kántha Victoria Memorial Library and Free Reading Room. Its financial condition is good, there being a balance of Rs. 7,000 invested in Government Securities. There are small libraries at Mánsa, Amliara, Pethápur and Dábhoda.

66. At the Higher Standard examination held at Rájkot, no candidates from this Agency appeared; at the Subordinate Agency Service and Lower

Standard Examinations held at Sádra, 3 and 2 candidates appeared, respectively, out of whom all in the former failed and one in the latter passed.

67. A skeleton map of the Mahi Kántha Agency is appended hereto.

Conclusion.

68. My predecessor, Major J. W. B. Merewether, has requested me to insert in this report the following notes as regards some members of the personnel of the Agency.

Lieutenant L. E. Lang was Assistant Political Agent and Superintendent of Police throughout the year under report. He also acted as Political Agent from 6th October 1911 to 8th November 1911. It therefore fell on him to make all preliminary arrangements to combat the famine which appeared to be imminent. He carried out this difficult duty in the most praiseworthy manner and it is very greatly due to his foresight and diligence that the Agency has come through the crisis so well.

Captain A. H. E. Mosse was Assistant Political Agent and Superintendent of Police from 1st February 1912 to May 10th, 1912. As usual with him, he has spared himself in no way and gave me most valuable assistance in dealing with the fodder famine, a duty for which he was well qualified by former experience.

Mr. V. G. Gadkarí was District Deputy Assistant Political Agent throughout the year and has performed his duties to my thorough satisfaction. He was constantly on the move in his districts and his energy has done much to lessen the evil effects of the famine.

The office establishment worked very satisfactorily throughout the year although they were much handicapped by the great increase in correspondence due to the severe scarcity which existed. I would especially bring to notice the names of Mr. Umiashanker Gowrishanker, Head Clerk, now Additional Deputy Assistant Political Agent, Mr. Ranchhodlal Chhaganlal, Sheristedar, and Mr. Tribhovandas Kuberdas Dalal, now sub. *pro tem.* Head Clerk.

I have the honour to be,

Sir,

Your most obedient servant,

N. S. COGHILL, Major,
Political Agent, Mahi Kántha.
